

How to use the parking kiosk:

1. Touch Screen:

Wake up the machine by touching the **Press Here** button (bottom left corner) and input your licence plate number.

2. Decide how long you want to stay:

Use the buttons on the screen to choose how long you would like to park. You can always change your mind.

3. Select how you'd like to pay:

Contactless payment:

If you have a chip on your card, you can use it to pay for parking. Hold your card over the reader until it beeps. There is no surcharge for card payment.

Coin slot: When prompted, insert coins into the coin slot.

If you wish to get a receipt, you can have it emailed to you by following the machine's instructions when prompted.

Or skip the kiosk...

QR Parkeasy:

Scan and pay.

Tip:

Open the camera on your smart phone and point at the QR code. If your phone can't read the code, you may need a QR reader app.

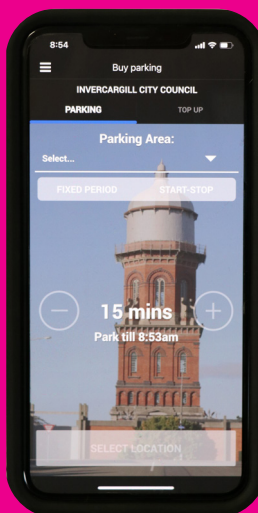

PayMyPark app:

Use your smart phone to pay for parking from anywhere. PayMyPark instructions are below.

Using the PayMyPark app

We welcome payment from PayMyPark app customers. PayMyPark is a simple application that you can use from your smart phone.

1. Download the app from the app store. Find PayMyPark in the Google Play Store or the Apple App Store.
2. The app will ask you to enter information to activate an account, including your licence plate number and credit card details so you can pay for parking when you need to. Enter your card information into the

app – this app is secure and safe. You can enter multiple cars on your account if you have more than one car you use.

3. You can choose to “top up” your PayMyPark account or you can pay as you go, which incurs a credit card charge.
4. When you park in the city, open your app and it will help you choose your location – Zone 1 for on-street parking or look at the sign at the entrance to where you are parked if you are unsure. Choose how long you wish to park when prompted. Your phone will alert you when your parking is due to run out and you can choose to pay for longer if you wish to stay.

Parking Zones

All on-street paid parking areas are zone 1.

Invercargill City Council off-street car parks and parking buildings have their own zones separate to on-street parking, with their own kiosks on site. These have different names, such as “ZONE E – ESK ST CARPARK #1”.

You can check how much time you have left or top up your parking from any kiosk within the zone you parked or via the PayMyPark app by entering your licence plate number.

Kiosks have replaced the traditional lollipop meters

How it works:

To park in the city, you will need to know the licence plate number of the car you are parking in and to have some coins, a contactless payment card, the PayMyPark app, or QR code.

If you are using the PayMyPark app, there is no need for you to use a parking kiosk - just follow the instructions on the app.

On the street there are many parking kiosks that service all parks on inner-city streets. Follow the instructions on the screen to enter the licence plate number of the car you are driving and then pay for your parking using coins, payWave, the PayMyPark app or the QR code Parkeasy option.

You will get the first **30 minutes FREE** per day per plate, but **you still need to enter your plate details** for that to apply. **After the first 30 minutes, the minimum amount of parking you can purchase is 15 minutes (50c).** You can then increase the amount you buy in 15 minute increments.

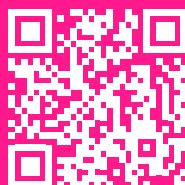

It doesn't matter which on-street kiosk you use to pay, and you can move your car to another on-street park within Zone 1 (the payment follows the car).

Our officers scan the licence plate number of cars to make sure the car's licence plate has been entered and that paid parking time has not elapsed. **Remember, even if you are using your 30 minutes free parking you need to enter your licence plate number so that you don't get a fine.**

You do not need to display a parking coupon in your car, you can just pay and walk away.

Remember, if you have any issues with our kiosks, ask our Parking Compliance Officers, call 0800 422 435 or come in to see our friendly customer service team at 101 Esk St and we will do our best to help you.

You can also check out the parking page on our website by scanning the QR code:
